

WHY IS THE MCH DIGITAL LIBRARY UNIQUE?

The MCH Library is the knowledge gateway of the National Center for Education in Maternal and Child Health (NCEMCH) at Georgetown University, and the only MCHB-funded project that provides access to critical resources on every topic of importance in MCH.

The MCH digital Library Strengthens MCH programs with:

EVIDENCE-BASED & INFORMED RESOURCES:

- Established Evidence
- Emerging Evidence
- State ESMs Database
- Evidence Tools & Reports

SEMINAL & HISTORIC RESOURCES:

- Resource Guides
- Professional Resources
- School & Family Resources
- Title V Toolkits

ADVANCED SEARCHING

Multiple databases help you find focused results that are specific to MCH populations:

Established Evidence - find seminal and peer-reviewed research articles that support NPMs.

Emerging Evidence - find new research articles that support NPMs through automated searches.

Organizations and MCH Projects - find relevant MCH organizations and MCHB funded projects.

Evidence-based/informed Strategy Measures - find ESMs in use by the states and jurisdictions.

MCHLine - find books & other full text materials held in the Mary C. Egan MCH database.

Special Collections - find historical documents related to MCH & services for children & families.
